our Services

Independence Australia specialises in delivering quality health and wellness products to people in their homes to help them enjoy a better quality of life.

We stock over 12,000 products across all the major brands and offer expert advice to ensure you have the best products to meet your needs

Why choose us?

Competitive prices

- Stretch your dollar further
- Exclusive product promotions to guarantee value for money

Prompt and professional delivery

- Warehouses in each state for quick delivery nationwide
- Free delivery for all online orders over \$50

Easy payment options

- A 14-day payment plan
- A variety of payment methods are available

Professional service for your convenience

- Customer Service is available Monday to Friday 8am to 7pm with extended hours during daylight savings
- A team of professional staff to provide expert advice and support

FREE continence support

Receive specialist continence advice for you or your loved one by calling 1300 788 855 or email askthenurse@independenceaustralia.com

Quick and reliable delivery

Discreet packaging available

Free delivery for online orders over \$50

Conditions apply. Visit store.independenceaustralia.com

How to care

For your condom drainage

What is a condom drainage?

A condom drainage or external sheath is a urine drainage system for men. You can use a condom drainage to prevent bladder accidents or to help with draining your bladder.

How to choose the right condom drainage?

It's important to choose a size that fits properly. Please use the detachable size guide provided by Independence Australia which can be found in this chart. Place the measuring guide at the base of the penis. If between sizes select the larger size.

Preparation

Application

Aftercare

Tips on how to prevent infection

- Use a new condom drainage every day.
- Wash your hands with soap and water before and after doing catheter care.
- Remove the condom drainage and wash your penis at least once a day.
- Empty the urine bag when it is 75% full. If you have a full sized bag, empty it at least every 8 hours. If you have a smaller leg bag, empty it every 3 to 4 hours.
- Remove the sheath whilst showering. (Adding a few drops of shampoo/conditioner may make removal easier)
- If there is a problem with the sheath coming off when using an overnight drainage bag, check the bag tubing width. If too small (HB pencil size – S2 bag) it will create backflow and the sheath may come off. Try a bag with a wider tube instead (chalk size - S4 bag)

Condom Drainage Comparison Chart

Item Code	Product Description	Supplier Part Number	Size (mm)	Length	Feature	Carton Qty	Price (inc.GST)
